BLOOD LEAD TESTING FOR STUDENTS ENTERING PK

Dear Parents/Guardians,

Public Health Law §1370- d requires schools to obtain from the parent/guardian evidence that their child has been screened for lead. Please provide written documentation of the lead test from your provider or have your child's provider complete the lead level section on the New York State Health Exam Form. Please visit our school website to find the Health Exam forms and additional information on lead prevention. If you have any questions, please call the school health office.

Sincerely,

School Health Office
